

MAGNETIC MOMENTS IN CENTRAL EUROPE TUTORIALS AND FRONTIERS

OTOČEC 2009

Otočec, Slovenia
February 11-15, 2009

You are cordially invited to attend the symposium Magnetic Moments in Central Europe. It will take place at Otočec Hotels that are situated near Novo mesto, close to the interstate highway between Ljubljana and Zagreb.

The MMCE symposium aims to bridge gaps between disciplines and to promote the potentials of the NMR among younger scientists. It will provide an opportunity to exchange knowledge and expertise in the field of the NMR spectroscopy between experimentalists and theoreticians working in academia and industry, as well as to become acquainted with the latest developments in the field in Central Europe and elsewhere in the world.

In addition to the scientific program, participants will be able to enjoy the unspoiled natural beauties as well as historical and cultural monuments of the area. The hotels offer a wide variety of recreation facilities and are in the vicinity of the romantic medieval Otočec Castle situated on an island in the emerald Krka River.

Topics

Polymorphism and Solid-state NMR

The Applications of NMR to Small Molecules

Fast and Novel Methods

Biomolecular NMR

Residual Dipolar Couplings

Hardware and Software News

Invited Lecturers - Tutors

IVANO BERTINI (University of Florence)

BERNHARD BRUTSCHER (Institute of Structural Biology, Grenoble)

LUCIO FRYDMAN (Weizmann Institute of Science, Rehovot)

ROBIN HARRIS (Durham University)

OSCAR MILLET (CIC bioGUNE, Bilbao)

HARALD SCHWALBE (Johann Wolfgang Goethe University in Frankfurt)

VLADIMÍR SYCHROVSKÝ (Institute of Organic Chemistry and Biochemistry, Prague)

DUŠAN UHRIN (University of Edinburgh)

Invited Speakers
